THE BUILDER.

FRENCH PLASTER mixed with sand forms a hard stucco for internal walls, which dries rapidly, and may be used in all cases in place of lime and hair, at a trifling increase of cost. It is stronger for general work that English plaster, and is cheaper in its first cost.—Importers and Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster; 11, South Wharf-road, Paddington; and Earl-street, Blackfriars.

ATKINSON'S CEMENT, made in London from the Stone supplied from the Makeraye estate, is well known for its quick setting properties and fine natural colour, which have distinguished it for many years as the best cement for floating and all ornamental purposes.—Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster; 11, South Wharf-road, Paddington; and Earl-street, Blackfriars.

KEENE'S and PARIAN CEMENTS, for internal stucco, are employed very advantageously in place of wood for skirtings, architraves, and panel mouldings and for in-door flooring, instead of stone. The peculiar properties of PARIAN Cement allow of its being painted or papered upon within a few hours of its application, and thus render it an important substitute for common plastering in those cases where expedition and beauty of finish are essential.—J. B. WHITE and SONS, Millbank-street, Westminster; 11, South Wharf-road, Paddington; and Earl-street, Blackfriars, Patentees of KEENE'S Cement, Licensees of PARIAN Cement.

J. B. WHITE and SONS advise purchasers of PORTLAND CEMENT to ascertain if an article now selling under that name at a reduced price be the real Portland cement of a spurious imitation of it in the shape of a Lias Lime.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of best Roman Cement, but has the advantage over that material of wholly resisting frost. When used as a stucco, it does not crystalize or turn green in damp situations, and remains no colouring. Employed as an hydraulic mortar for brickwork, it carries up to five measures of sand to one of cement, and is proved by trial to become harder and stronger in these proportions than Roman Cement with but one measure of sand. This superior covering power, combined with its eminently hydraulic properties, renders it not as the fittest material for building sea and embankment walls, the lining of reservoirs, cisterns, and baths, and for all those purposes where strength and a perfect resistance to water are required.

Manufacturers—J. B. WHITE and SONS, Millbank-street, Westminster; 11, South Wharf-road, Paddington; and Earl-street, Blackfriars, and 36, Basinghall-street, Liverpool.

PORTLAND CEMENT, in Casks of Four Imperial Bushels. QUANTITY NOT WEIGHT, BEING THE STANDARD.—CHAS. FRANCIS and SONS, Cement Works, Nine Elms, London.

6, South Wharf, Paddington.

PORTLAND CEMENT.—CHARLES RICHARDSON has the greatest confidence in introducing the trade the above superior CEMENT, being of uniform colour and quality in desideratum never before attained in Portland cement. It possesses extraordinary constitutional qualities, resists the action of frost and heat, and is more durable than any other Cement; does not vegetate, turn green, or crack, combined with which its eminent hydraulic properties stamp it at once as the best Cement of the day for work where all the above qualities are requisite. It is manufactured on the only principle Portland cement can be, and contrary to the statements put forth by those who have hitherto had the monopoly. Manufactured by S. REEVES, Esq., at his Works, near the River Aron, and sent to any part of the kingdom per boat or rail, at a reduced price to the trade.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee.—Messrs. ROBINS, ASPDIN, and Co. request attention to Nos. 328, page 241; and also Nos. 332 and 333, pages 321 and 321, of "The Builder," for accounts of EXPERIMENTS to ascertain the strength of Portland Cements, whereby the superiority of their Cement is manifest. This Cement has been used for upwards of twenty years in the Thames Tunnel and the section of water: it is stronger in its cementitious property, harder, and more durable than any other description of stone. It does not vegetate, crystalize, or turn green; nor is it affected by any atmospheric influence whatever the climate, resisting alike the action of frost and heat. It is manufactured to set in five to sixty minutes. For all purposes that Cement is applicable to the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Co., Patent Manufacturers, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; and at their Depôt, 58, Hanover-street, Liverpool.

PERMANENT STUCCO WASH, WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT.

As used at St. George's Hospital, Hyde Park corner.

ROBINS and Co. having effected some important improvements in the manufacture of this very useful material, confidently offer it to the notice of the Trade and the Public generally, as possessing many advantages over the common Lime Wash or Water Colour for STUCCO or BRICK WORK. It is a Stone Colour, but may be tinted to any other—DOES NOT WASH OFF—is perfectly dry in two or three hours, and, being a non-absorbent, is admirably adapted for Railway Stations, Union Workhouses, Barracks, Prisons, &c. one cwt. will cover 25 square yards, and is good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.

ROBINS and CO.'S STUCCO CEMENT. This cement, from its great reduction in price, and its establishment for internal as well as external surfaces, places it above all other materials of its kind; it has no unpleasant qualities—may be painted or papered a few days; never blisters, cracks, or vegetates; soon becomes hard as stone; and may be cleaned with a brush and water.

The merits of the PAINT are well known for its application to stone work of all kinds, and external work generally. Sample tints, testimonials, prospectuses, and every information may be returned, on application to the Sole Agent, PHILIP HARE, at the Warehouse, 31, Steel-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

ARCHITECTS or BUILDERS requiring ENRICHMENTS in COMPOSITION CEMENT, or STUCK, cannot have better executed work than that produced by WM. SMART, jun., of 18, CROWN-STREET, FINSBURY, who will be happy to give Estimates for work of any magnitude, at the lowest scale of charges. Architects' designs modelled with precision, and generally truthfully carried out. Established in the early three-fourths of a century.

CLASS II.—CHEMICAL AND PHARMACEUTICAL PRODUCTS.

DAMP WALLS. — NEW ELASTIC PAINT, an effectual remedy (made or cast) will dry up the damp, and may be immediately papered over if required. PATENT MINERAL ZINC PAINTS, invaluable for cheapness, durability, and permanence. READY FOR USE, will stand any climate, and are well calculated for exportation. White, stone, lead, &c. Lithogen, and lime, as per guinea.

PATENT LIQUID CEMENT, READY FOR USE on the surface of bottoms, only one eighth the cost of all paint; for beauty of finish, giving the appearance of fine oil stone. In casks of 1 cwt., and 2 cwt., at 8s., 15s., and 28s. each. Casks returned.

MILLS and Co., Steam Mills, 2, Wellington-street, Gorwell-road, London.

THE METALLIC PAINT, produced by the PATENT ALKALI COMPANY, has been extensively used for several years on farm buildings, iron bridges, roofs, and ships' decks, &c., and it is universally admitted that it covers a greater surface than any other pigment, and stands far better on wood, than lime, and Roman cement, than the ordinary paints. Prime blush, 28s. per ton; ditto purple brown, 24s. per ton.

The Company's Offices, 1, New Broad-street, London.

JOHN A. WENT, Secretary.

HUBBUCK'S PATENT WHITE ZINC PAINT.—This charming white, the favourite pigment of the ancients, has been used by artists through successive ages admirable, and is still known to the members of the Royal Academy as one of the old name of Permanent White. Modern decorators could rarely afford this expensive article, even for the delicate tracery of the most costly works.

Three years since the proprietors placed these manufactures on a large scale, and offered it at a price to compete with White Lead paint.

The successful introduction of this paint, and its confessed superiority over every other paint hitherto known, brought forward various imitations.

These inferior productions, frequently made from zinc ores, containing sulphur, lead, arsenic, and other deleterious matter of the ingredients to health, deficient in body, and rendering the preservative properties for which the original paint stands pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence that it is all the same.

HUBBUCK'S paint is entirely free from any injurious properties whatever; it is healthful in the manufacture, beautiful in use, and is harmless to occupants of rooms newly painted with it.

As a guard to the painter against the substitution of the inferior paints, each cask is stamped

"HUBBUCK, LONDON PATENT;"

and if the cask has not been both so marked, the case is not genuine.

A Circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London Docks.

PURE WHITE ZINC PAINT.—Manufactured from the Vieille Montagne Company's white oxide of zinc; perfectly free from all poisonous qualities, is unaffected by sea water, superseded lead paint, and all other paints, and preserves its original colour where white lead paint will turn yellow. Also Grey Zinc Paint, specially for iron work, and all work exposed to the weather. Sold wholesale by JOHN WARNER and SONS, 8, Crescent, Jewin-street, London.

PURE PATENT WHITE ZINC PAINT. From the Vieille Montagne Zinc Mines; Company.—The Company having become Proprietors of all rights and benefits of the late Patent White Zinc Company, in France and Belgium, is prepared to furnish, on a large scale, the WHITE OXIDE OF ZINC in a pure state, and of a quality which can only be manufactured with it came from the mines in Belgium. Patent White Zinc Paint is superior, in every respect, to white Lead paint. It is entirely free from all poisonous influences, and is unaffected by sea water, sulphurated hydrogen, or any gases, besides it preserves its original colour which White Lead Paint does not. White Zinc Paint causes none of those ravages (that all who consider the white lead upon the human frame; neither painters, plumbers, &c., to which dangerous complaints the workmen who manufacture and use it are subject; and to which persons who inhabit newly-painted apartments are also liable. Numerous articles having been introduced in the market, under the name of White Zinc Paint, the public is cautioned against it, because, when adulterated, it becomes a very inferior paint, instead of a first-rate one. For further particulars and prices, apply to Mr. H. F. SCHMOLL, General Agent for England and resident, at the Company's offices, 11, Manchester buildings, Westminster bridge; and for samples of material and prices, at Messrs. CHAS. DEVAUX and Co.'s, 62, King William-street, City.

EVANS'S MINERAL OXIDE PAINTS. Office, 9, Philpot-lane, London.

Green	5s. per Cwt.
Lead Colour	5s. "
Stone or Drab	5s. "
Black	5s. "
Dark Brown	5s. "
Yellow for Tarpaulins	5s. "

Packages of 1 Cwt. and upwards are not charged.

These preparations of the Mineral Oxide Paints will be found more durable, and at the same time more economical than any other paint.

They are proof against all atmospheric action, gases, and salt water, of which the following testimonials are sufficient evidence:

"To Bulmer square.

"GENTLEMEN,

"The result of the trial of your Mineral Oxide Paints on the floors manufactured by us for the service of the Honourable Commissioners of the Trinity House, has been very satisfactory, both as it respects the quality and the durability of the Paints, and the economy of use.

"You are at liberty to make use of this testimonial in their favour. "We are, Gentlemen, your obedient Servants.

Signed "BROWN, LENNOX and Co."

"5, Wharf Lane, road, Kingsland road.

"Sir,

"We have used your paint on the railway arch works which we have contracted during the last seven years and have no hesitation in stating it to be the best and most durable covering for iron.

"We shall continue to use and recommend it as hereto fore.

"We are Sir, yours obediently,

(signed) "WEST and WRIGHTS."

To whom testimonials can be had on application.

STAINING DEAL to IMITATE ALL KINDS of WOODS. It requires no rubbing, and will stand the exposure to the weather. Price 6s. per gallon. Varnishes of all kinds may be had at the Factory, 27, James-street, Oxford-street.

TO THE NOBILITY AND GENTRY FURNISHING.—Gutta Percha Looking-glass Frames, and Picture Frames Consolidated in Cornices, Brackets and Decorations are best and most durable. They will not crack or chip, and stand the wash. Gutta Percha Establishment, 18, New Road-street, Lincoln's-inn-fields, by appointment, A. TILLEY and Co. Every article manufactured by the Gutta Percha Company, 18, Wharf-road, City-road, London.

NOISELESS RINGS.

GUTTA PERCHA CURTAIN and CORNICE RINGS.—These rings have been much approved by the Faculty, particularly for extreme and weak patients, owing to the peculiar properties of Gutta Percha, these rings do not make a noise when drawn along the pole or rod. The full size rings may be had, either with or without loops.—Size: Inside diameter, 1½ inch do., 2 inch do., 2½ inch do., 3 inch do., 3½ inch do.

TUBING, LINING, for TANKS, ORNAMENTAL MOULDINGS, &c., manufactured by the GUTTA PERCHA COMPANY, (Patentees), 18, Wharf-road, City-road, London.

NEW SHOW-ROOMS FOR BEDSTEADS. HEAL and SON have opened some extensive Warerooms for the purpose of keeping every description of Bedstead. In it their stock will include every sort manufactured, from the cheap stump, for servants' use, to the handsomely ornamented tubular-pillared Canopy, as well as Brass Bedsteads of every shape and pattern; and in Wooden Bedsteads their rooms are sufficiently extensive to allow them to fit up a variety, both in Polished Birch and Mahogany, of Four-post, Canopy, and French, and also of Japanned Bedsteads—in fact to keep in stock every sort of Bedstead that is made; and they have also a general assortment of Furniture Chintzes, Damasks, and Dimities, so as to render their stock complete for the Furnishing of Bedsteads as well as Bedding. And without attempting to compete with the prices at which the lowest class of Furniture is sold, and which is fit for no useful purpose, their own stock will be found to be priced on the same principle by which their Bedding Trade has, during the last thirty years, been so successfully extended, and the goods, whether of a plain and simple pattern, or of a handsomer and more expensive character, are of well-seasoned materials, sound workmanship, and warranted.

HEAL and SON'S List of Bedding, containing full particulars of Weights, Sizes, and Prices of every description of Bedding, sent free by post, on application to their factory

196 (opposite the Church), Tottenham-court-road, London

REDUCED PRICES.—EDWARD SIMMS late Williams, respectfully informs the Trade, Builders, Architects, and the Public generally, that he has REMOVED from No. 4, Bridge-street, Blackfriars, to more extensive premises, No. 7, Bridge-street, Blackfriars, where he has on hand a large assortment of Deal and Wainscot, Mahogany, Veneers, Fancy Woods, Floorings, Mouldings, and Wainscoting, all of which he will sell at reduced prices, and hopes by strict attention to business, and the lowest possible charges, to merit a continuance of the favours conferred on his late firm.

PREPARED FLOORING.—ALFRED HOLLINS begs to call the attention of Builders and others generally to the NEW SYSTEM OF FLOORING, prepared in the form of a tile to start and fit for several uses, their superiority in the first place, over all others, is sufficiently evinced by the greatly increased demand. A floor laid by him is a position to offer every description of timber and wood for sale, and is inspected by the country at the most possible price consistent with fair trade, and begs to assure the orders of those who have not yet favoured him, feeling confident he can offer them advantages which they will appreciate.—South-wark-bridge Wharf, Blackfriars.

THOMAS ADAMS, MAHOGANY and TIMBER MERCHANT, Carpenter, Joiner, and Builder, the Bricklayers' Arms, Old Kent-road, begs to call the attention of Builders, Cabinet Makers, and the Trade generally, to his large and well-selected STOCK of PLANK, DEALS, and MAHOGANY, always kept under cover, in the best condition for immediate use, at the LOWEST POSSIBLE PRICE for cash. Parties favoured with orders to execute in the shortest time, and in the best manner, all the requirements of the various trades connected with the building profession, and to guarantee satisfaction. Estimates carefully prepared. Manufactures from a very large stock, at the most moderate and reduced prices, a drawing of the patterns will be forwarded on receipt of two postage stamps. A very extensive stock of Oak Boards of every description, kept under cover, at reasonable prices, and the same charged at reduced cash prices. Particular notice to Cabinet makers, wheelwrights, &c. Every information will be given. A good carpenter's bench for sale. Steam Saw Mills, Bricklayers' Arms.

N.B. Flemish lumber taken in exchange.

TIMBER, DEALS, and MAHOGANY. ARTHUR SIMMS and Co., Timber and Deal Importers, beg to call the attention of Builders, Cabinet Makers, and the Trade generally, to their large and well-selected STOCK of TIMBER, DEALS, and MAHOGANY, always kept under cover, at the LOWEST POSSIBLE PRICE for cash. Parties favoured with orders to execute in the shortest time, and in the best manner, all the requirements of the various trades connected with the building profession, and to guarantee satisfaction. Estimates carefully prepared. Manufactures from a very large stock, at the most moderate and reduced prices, a drawing of the patterns will be forwarded on receipt of two postage stamps. A very extensive stock of Oak Boards of every description, kept under cover, at reasonable prices, and the same charged at reduced cash prices. Particular notice to Cabinet makers, wheelwrights, &c. Every information will be given. A good carpenter's bench for sale. Steam Saw Mills, Bricklayers' Arms.

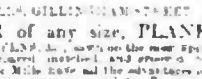
N.B. Flemish lumber taken in exchange.

TO BUILDERS.

ENGLISH TIMBER.—OAK, ASH, or ELM, cut to any required size, and well seasoned, at prices as low as foreign timber can be had for, and much more durable. Estimates given. Also a large assortment of Deal and Battens. CAST STEEL.—Apply to Mr. MAY, 10, Leicester-street.

TO PLASTERERS AND BUILDERS.

BALTIC LATHS. 1*l.* 15*s.* per Load, Cash.—The manufacturer of Laths as above begs to intimate that he has now on hand a large stock of Laths, which he will sell at the above low price for cash. Also a large assortment of Deal and Battens. Apply to Mr. ARCHIBALD DALLAS, Lath Manufacturer, Wardour-street, Hackney-road.



SAW MILLS, GILLINGHAM-STREET, PIMLICO.

TIMBER of any size, PLANK, DEALS, and BATTENS, sawn on the most approved principles by first-rate machinery, and prepared and planed by Moirs Patent Machinery. The Mills being near the metropolis, and the arrangements being so effected with the Thames Steam Packet Vessels, goods are placed from the docks, quite carriage free of charge.

Address to HENRY MOIRS AND SON, Saw Mills, Gillingham-street, Pimlico.

N.B. Estimates given for Sawing and Planing.

THE GENERAL WOOD-CUTTING COMPANY, TIMBER WHARF, SAWING, PLANING AND MOULDING MILLS, &c.

The Directors of the above Company beg to inform the Trade and the Public generally, that the Company are prepared to supply timber and deals, &c., cut to any size, and at the current prices of the day. The Company have purchased the whole of WELLS, BEANSHED and FLEMISH'S extensive STOCK of TIMBER, DEALS, &c., which, being manufactured to the various sizes required, will enable the Company to execute orders with the greatest despatch. The Directors would also beg to call the attention of Builders to the fact that the Company have been enabled to purchase the whole of the valuable and extensive MACHINERY, which will enable the Company to execute orders with the greatest despatch. The Company have also to call the attention of Builders to their NEW MOULDING LIST, the largest ever published, which will be found to be of the most complete pattern, containing many hundred new patterns, and which will be forwarded on application. Many of the moulds, and all machinery used for working them, are entirely new, and have been manufactured from drawings, &c., with an accuracy and correctness which could only be obtained by the most extensive experience.

The machinery for working heavy timber is of the most complete description, and orders can be executed with the greatest despatch. Estimates can be had at the Company's office, 11, Manchester buildings, Westminster bridge, on receipt of copy of stage showing the situation of the premises.

The Company, although possessing extensive premises, have not entered into the general building speculation, but have confined their operations to the above branches of business, which they will be able to carry on with greater advantage to the public, and more satisfaction to themselves.

The Company have also to call the attention of Builders to their PATENT SASH FASTENER, which is found to be a most complete fastening, and one which will not rattle or get out of order. Many hundreds of these fasteners have been fixed in the Houses of Parliament, and have given the greatest satisfaction.

Offices, 11, Manchester buildings, Westminster bridge.

TIMBER PRESERVING COMPANY.— LIMITED.—WORKS and SAW MILLS, 10, CLEMENT'S WHARF, BERMONDSEY.—The Directors of the above Company beg to call the attention of Builders and others to their works for the preservation of timber from dry rot, worm, &c., as proved by numerous AWARDS. Orders have been executed for Government, the Admiralty, Ordnance, Railway Companies, Builders, &c., which can be referred to. Estimates carefully prepared for the preservation of timber, and delivered to any part of the country. Apply at the Offices, 10, Clement's Wharf, Bermondsey. Works, 10, Clement's Wharf, Bermondsey. Offices, 10, Clement's Wharf, Bermondsey.

MOULDINGS by Machinery at Reduced Prices.

Large size Architrave 3½ inches by 1 inch, 4*d.* per foot.

Ditto with returned head, 5*d.*

Ditto Door Moulding

A list of worth us of the most useful and approved designs, with prices properly made to the trade will be forwarded on receipt of stamp. Terms, cash. Planing, &c. Timber for sale. HUNT'S Saw Mills, Camden-terrace, 161, New Pancras-road.

WIRE NETTING and WINDOW BLIND MANUFACTORY.—The Majesty's Honourable Board of Ordnance, and the Honourable East India Company.—Wire Netting, 1*d.* per square foot; fashionable lattice fronts for parks, &c. Wire Blinds, to make any fronts, and inside, complete, 1*s.* 6*d.* per foot. Zinc ditto, 1*s.* 3*d.* per foot. Venetians, 6*d.* per foot. Plain and Transparent, and Window Blinds of all kinds. Old Blinds repaired, repainted, and varnished. Wire work for fruit trees, garden arches, seats, flowerstands, stair rails, fronts of houses of every description of pattern. Pets and nursery cages, and every description of iron and wire at THOMAS HENRY PEARCE'S CITY of LONDON WIRE WORK, IRON FENCE and WEATHER GUARD MANUFACTORY, 66, Skinner-street, and 6 and 8, Bacon's-hill, London. Every information, with samples of specimens and illustrated catalogues, forwarded, post free. Wire work for paper makers, millers, chemists, and for the East and West Indies.
